About The Voice Foundation

The world's leading organization dedicated to solving voice problems

“The human voice is our chief means of communication, a fundamental tool for working and living, and a rich source of artistic pleasure.” - Walter Cronkite

You don't need to be an actor, singer, or broadcaster to be a professional voice user. **Teachers, physicians, salespeople**, and many others depend on their voices to earn a living. Warning signs of a potentially serious disease – a raspy voice, a persistent, dull pain in the throat, difficulty in swallowing, or a tired voice – are ignored too often.

According to The National Institutes of Health's National Institute on Deafness and Other Communication Disorders reports that approximately **7.5 million Americans** have trouble using their voices. Despite widespread voice problems, too little is known about the vocal disorders which cut short careers, impair the speech process, devastate and even threaten people's lives.

The Voice Foundation is the world's leading organization dedicated to solving voice problems. The Foundation seeks to protect and enhance the gift of vocal communication through:

-Research to advance the diagnosis and treatment of vocal problems, including improved non-surgical and surgical techniques;

- Sponsoring national and international symposia and seminars;
- Publishing and distributing professional and scientific publications and video teaching materials;
- Awarding research grants and fellowship;
- Disseminating information through the media to raise awareness of voice care.

When The Voice Foundation was founded in 1969 by the internationally celebrated voice specialist **Wilbur James Gould, M.D.**, interdisciplinary care of the human voice was non-existent. Dr. Gould's groundbreaking foresight brought together physicians, scientists, speech-language pathologists, performers, and teachers to share their knowledge and expertise in the care of the professional voice user. Since 1989, The Voice Foundation has been led by **Robert Thayer Sataloff, M.D., D.M.A., F.A.C.S.**, an internationally renowned otolaryngologist who is also a professional singer and conductor, and author of more than 1000 publications including 46 textbooks.

Care of the Professional Voice

attracts hundreds of medical and scientific experts, speech language pathologists, performing artists and teachers from over 35 states and 30 countries.

Papers presented at this Symposium educate the public and the scientific community on the latest advances in voice science and care.

All-round, interdisciplinary care

Care of the Professional Voice, the 44th annual symposium hosted by The Voice Foundation, features advanced programming presented by leading professionals in the voice care field from **thirty-five states** and **thirty countries**. Voice professionals from all over the world come to gather the latest information, network with colleagues, see product demonstrations, learn cutting-edge techniques and earn continuing education credits.

More than 400 voice care professionals, during most meetings, attend, including a strong faculty attendance from hospitals and universities worldwide.

During breakfast and coffee breaks the attendees evaluate purchases for their practices, hospitals and facilities. With your newest publications on display, they are made aware of the tools available for learning and teaching. The Voice Foundation welcomes all exhibitors to attend the scientific sessions.
