Lalitha PVS Institute of Medical Sciences, Guntur,
Neuroscientists Association, Guntur,
APASLPA, AOI – Guntur Branch, and Voice Foundation, U.S.A.

1st November 2026

Venue: 7th Floor, Auditorium – Lalitha PVS Institute of Medical Sciences, Guntur

Welcome Message

Dear Colleagues,

We are delighted to invite you to the **20th National Phonosurgery Course and Workshop**, with a focus on **SPASMODIC DYSPHONIA**, to be held on **1st November 2026** at **Lalitha PVS Institute of Medical Sciences (PVSIMS), Guntur, now part of Amaravati, Andhra Pradesh**.

Sri Sathya Sai Institute of ENT and Melody Voice Clinic, Guntur, Andhra Pradesh, has been well known as a tertiary referral centre for laryngology and advanced voice care since 2003.

The theme of the present workshop is Spasmodic Dysphonia. The workshop aims to offer a comprehensive perspective by bringing together ENT surgeons, laryngologists, neurologists, and other related healthcare professionals from across the country to share their expertise in the diagnosis and management of Spasmodic Dysphonia.

Spasmodic Dysphonia, also known as Laryngeal Dystonia, is a movement disorder with a prevalence of 1.1 per 100,000 in the Indian population. This is **probably the first national workshop in the country exclusively dedicated to SPASMODIC DYSPHONIA**. It will offer a comprehensive educational experience, particularly for postgraduate students, by bringing together a team of experts from different fields, including laryngology, neurology, and other allied specialties, on a common platform.

With your enthusiastic participation and support, we hope to make this event a landmark gathering in the fields of laryngology and neurology.

We look forward to welcoming you in November.

Warm regards,
Organizing Committee

Organizing Committee

Patron

Dr. P. V. Raghava Sarma
M.D., D.M.
Chief Cardiologist & Director
Lalitha PVSIMS, Guntur

Organizing Chairpersons and course Directors

Dr. V. Phaniendrakumar
M.S.
Laryngologist

Highlights of the Course

Didactic and interactive lectures, from basic to advanced, on Spasmodic Dysphonia by a team of well-experienced laryngologists, neuroscientists, psychiatrists, speech-language pathologists, and pharmacologists on various aspects such as:

01

**Clinical
evaluation and
differential
diagnosis**

02

**Diagnostic
workup in a
voice lab using
standard
parameters**

03

**Botox therapy—selection
of cases, dosage,
complications, EMG-
guided and endoscopic
injection techniques**

04

**Surgical
techniques—
Laser TAMN,
thyroplasty, and
SLAD-R**

05

**Advanced
pharmacotherapy**

06

**Recent
advances**

07

**Role of
psychotherapy**

08

**Role of voice
therapy**

Registration Tariff

**CME
CREDIT HOURS
APPLIED**
